

Fishermen's Bend Airstrips

The CAC built 1683 aircraft from its Lorimer Street (Fishermen's Bend) factory and flew them out from an airstrip at or near the factory. This airstrip was apparently the fourth to be built in the Fishermen's Bend area. Has anyone any idea of how many airstrips were at Fishermen's Bend and where the other airstrips were located?

If so, please contact heritage@consuleng.com.au
